# Modern Workspace

## Meet the future office space

Today's global workspace spans across homes, offices, devices, and storage. Your teams expect systems that support this reality without missing a beat. Blue Mantis modern workspace solutions enable you to tear down the barriers to your organization's most valuable assets: ideas.

## Hybrid cloud management

Blue Mantis implements and orchestrates work environments that unite private architectures, public clouds, and traditional IT systems, guiding your cloud evolution with efficiency and maximizing productivity.

## Lifecycle endpoint management

Your teams are everywhere, working at all times. Maintain full visibility and control of their devices while creating a seamless, secure, and efficient end user experience.

## Technology Innovation Center

Accelerate asset fulfillment with our cutting-edge, secure ISO 9001:2015 certified facility that allows us to automate, configure, and customize the IT device lifecycle specific to your needs.

## Intrinsic security

Security is the foundation of everything we do. We measure each solution first by its potential for business improvement and then validate it through rigorous security checks. Iron-clad security is critical in the workspace of tomorrow.

## Top verticals for modern workspace

Finance & Banking

Healthcare & Life Sciences

Business Services

Retail

Manufacturing

Public Sector

## Work from anywhere

Empower employees to be their best across multiple locations, devices, and applications with innovative solutions that enable better collaboration without compromising security.

## Collaboration & mobility

Our solutions bring the complex system of devices, connectivity, security, and applications needed for the modern workspace into a seamless orbit around end users

## A user-first approach

A truly modern workspace demands a shift in perception from tech first to user first. We put ourselves in the minds of end users, imagine the most seamless and productive workflows and then architect solutions around that.

## Secure device experiences

Keep your employees and data safe with our dynamic fully managed cloud-native solutions tailored to modern workforces.

## Maximize investments

Our Modern Workspace services deliver improved user productivity and faster time to value all while reducing lifecycle costs and improving user experience.
