# Cloud

## Embrace your cloud-based future

The cloud is mainstream. Gartner stats show over 90% of businesses are using multiple cloud services. Blue Mantis Cloud solutions simplify your cloud transformation. From deployment and management of cloud platforms, to our unique FinOps and GitOps processes, we provide cloud services that lower costs, increase control, and maximize ROI.

## Secure multi-cloud solutions

Blue Mantis partners with all major hyperscale public cloud providers. You get cloud solutions built on a zero-trust security framework. Whether you want to leverage Amazon, Microsoft, Google or a combination of all three, our experts design, deploy, and manage cloud environments to achieve your desired business outcomes.

## Optimize your cloud IT spending

Blue Mantis FinOps delivers cloud cost optimization as a turnkey service with quick time to value that IT and finance leaders will love. Our unique FinOps solutions provide unparalleled visibility into your cloud costs in real time with ongoing strategies on how to save money. Increase efficiencies, lower costs by as much as 30%, and bring much needed transparency during tough economic times.

## Innovate without operational friction

Improve your DevOps with our managed GitOps code delivery platform. Delivered as a managed service, our GitOps solution supercharges your IT team's productivity by unifying, simplifying, and securing all aspects of your DevOps. Blue Mantis reinforces your DevOps practice with a unified platform that brings greater control, collaboration, and automation for easier deployments across different environments.

## Top verticals for cloud solutions

- **Public Sector**

## Accelerate your digital transformation

Leverage AWS, Azure, and Google Cloud Platform to enable IT modernization with hyperscale efficiency to achieve your business goals without overcommitting your budget.

## Secure your cloud-first IT environment

Security is the bedrock of all our services, and it guides our entire cloud approach, giving you the confidence to adapt and transition without fear or doubt.

## Optimize for scalability, speed, and cost

Our unique services bring a whole new level of agility and control over your cloud, enabling you to handle varying workloads and scale effectively with your organization's growth.

> "[Blue Mantis] is helping us transform our business. We need new tools, new services, new products, and new processes to support our customers' future state."
