

# IR JumpStart Retainer

from  **ARCTIC  
WOLF**

## Be prepared for any cyberattack

Do you have an action plan for ransomware and other incidents? While our competitors are charging tens of thousands of dollars for pre-purchased IR hours, with an Arctic Wolf® IR JumpStart Retainer from Blue Mantis, your organization gets quick response times bundled with proactive IR planning— all without upfront costs.

## Strategic and proactive IR planning

Get a comprehensive solution for creating and refining IR plans. The IR JumpStart Retainer includes a guided IR plan builder that gathers business-critical information followed by a detailed plan review to identify and fill any gaps that could delay remediation of a data breach or other incident. Arctic Wolf uses their years of proven expertise in restoring organizations of all sizes from cyberattacks to build a solid cybersecurity foundation for your business.

## Rapid remediation with 1-hr SLAs

Powered by a global cloud-native security operations platform, Arctic Wolf responds to your cyber emergency in as little as one hour. A dedicated Incident Director orchestrates the efforts of an expert IR team to deliver the rapid analysis and remediation you need to minimize downtime while staying informed on progress.

## Business Benefits

- Respond quickly to cyberattacks using Arctic Wolf's full-service IR team with a 1-hour response SLA
- Remediate from your root causes of compromise with strategic and proactive IR planning
- Restore data and systems to pre-incident condition with proven world-class IR tactics

 Secure your environment by eliminating threat actor access.	 Analyze the cause and extent of the bad activities inside your network.	 Restore your organization to its pre-incident condition.
Remediate root point of compromise	Establish attacker dwell time	Recover data and restore systems
Monitor for any re-entry attempts	Investigate which files may have been accessed, deleted, or stolen	Mediate with threat actors
Collect and preserve data and evidence	Provide explanation of forensic findings	Negotiate ransom settlements
