

Microsoft Solutions

Your one-stop Microsoft shop

From business applications to cloud operations, Microsoft technology is at the core of nearly every modern workplace. Blue Mantis provides businesses with scalable Microsoft Azure, Office 365, and Windows 11 solutions that are optimized for security, performance, and cost.

Maximize your Azure cloud

Blue Mantis offers a seamless integration of Microsoft Azure into your business processes, ensuring a smooth transition to the cloud. Whether you want to virtualize onsite servers, build cloud-native apps, or simplify a complex hybrid IT environment, Azure solutions from Blue Mantis evolve with your business needs—and our cross-practice expertise in networking, data center modernization, and security empowers your business with limitless flexibility.

Enhance productivity with AI

The winning combination of Microsoft 365, Windows 11, and Copilot AI promises to reimagine the workspace. Our Technology Innovation Center delivers AI-ready devices anywhere your employees work that are ready to go out of the box. Blue Mantis experts not only can provide 24/7 live help desk support for your employees but can also create a strategic AI data security and governance strategy for your business.

Secure and cost optimized

Blue Mantis cloud solutions are always built on a zero-trust security framework. We also offer unique managed FinOps services to deliver unparalleled visibility into your cloud costs and ongoing strategies for saving money. Only Blue Mantis can increase your operational efficiency while lowering cloud costs by at least 30% with our FinOps solutions.
