# Digital Strategy Blueprint 3-Day Workshop

## Foundational for Modernization

Organizations with legacy operating models face inefficiencies, slow response times, and inability to scale. Outdated processes likely hinder innovation, increase costs, and limit adaptability to market changes in our digital economy.

Blue Mantis delivers a structured multi-day workshop crafted to equip leaders with the essential insights needed to drive transformative changes within a modern IT operating model.

## Transform Your IT with Strategy

Blue Mantis' 3-Day Digital Strategy Blueprint Workshop provides IT leaders with a strategic, actionable roadmap to adopt a modern operating model. Through structured sessions, we address key focus areas, align unspoken expectations, and develop a unified vision to guide organizational change. The workshop delivers detailed recommendations across six critical domains—Strategy, Governance, Security, Operations, Data & AI, and Innovation—empowering IT executives to drive transformation, improve alignment, and unlock business value through prioritized, actionable next steps.

## Benefits

- Discover your IT operating model to uncover maturity gaps and areas for improvement across key disciplines.
- Enable your team across the foundational domains of Strategy, Security and Operations.
- Deliver actionable recommendations to accelerate IT modernization and achieve sustainable innovation.
