

Shared Responsibility Model Assessment (Half-Day Workshop)

Benefits

- **Build a Strong Foundation:** Align IT operations with shared responsibility principles to improve efficiency and collaboration.
- **Identify Gaps Across 20 Disciplines:** Identify capability strengths and gaps across your cloud operations.
- **Reduce Risk & Optimize Processes:** Get customized recommendations to eliminate misconfigurations and compliance exposure.
- **Achieve Long-Term Operational Success:** Walk away with actionable steps to optimize service provider collaboration.

Business Challenge and Solution

Cloud environments create blurry lines between provider and internal team responsibilities. The result: unprotected data, misconfigured systems, and compliance gaps that compound as workloads move off-premise.

Blue Mantis' Shared Responsibility Model Assessment (Half-Day Workshop) educates your team, assesses your capabilities, and delivers a clear roadmap to close the gaps and reduce risk.

Key Features and Scope

Our Shared Responsibility Model Workshop delivers a structured, half-day assessment and education experience designed for IT teams ready to close compliance gaps and operate with confidence.

- **Foundational Education:** Cover shared responsibility across On-Premise, Colocation, Hosting, IaaS, PaaS, and SaaS models.
- **20-Discipline Assessment:** Evaluate capabilities across key operational areas including Asset and Service Level Management.
- **Gap Analysis:** Surface misalignments between internal teams and cloud provider responsibilities.
- **Risk Identification:** Uncover misconfigurations and compliance vulnerabilities before they escalate.
- **Customized Recommendations:** Receive a prioritized action plan tailored to your environment.
- **Transition Support:** Move toward optimized provider collaboration or Blue Mantis Managed Services.

Why Blue Mantis

Blue Mantis delivers a structured, half-day workshop that gives your team the clarity and confidence to operate securely and responsibly in any cloud environment.
