

# Mantis Connect Assessment

## Benefits

- **Visibility & Clarity:** Get a clear picture of how your connectivity is billed and confirm alignment with business objectives.
- **Renewal Readiness:** Confirm billing addresses are ready to receive next-gen services at the same renewal price.
- **Renewal Optimization:** Apply the most cost-effective promos available during the renewal timeframe.
- **Cost Optimization:** Flag fees and charges that don't align with contracted services and confirm market competitiveness.

## Business Challenge and Solution

Connectivity and telecom represent 30% of total IT spend and is the foundation of daily operations. Most organizations lack the time and expertise to validate carrier billing every month.

Are your service costs market competitive? Are your carrier's technologies meeting your corporate objectives through current technology standards?

During the **Mantis Connect Health Check Assessment**, our subject matter experts perform a thorough analysis of your carrier billing to confirm costs are competitive, charges are accurate, and carrier technologies align with your corporate objectives.

## Key Features and Scope

- **Analyze Billing:** Review current spending, confirm service fees, and capture redundant providers.
- **Assess Service Charges:** Assess cost recovery fees, admin fees, minimum monthly fees, etc.
- **Assess Fees:** Assess that services being billed are logically interconnected.
- **Deliverables:** Mantis Connect Health Check Report, including executive summary, detailed findings and analysis, and recommendations for reconciliation.

## Why Blue Mantis

Let us become your single point of contact for carrier sourcing and procurement, as well as billing expertise and management.
